FOR IMMEDIATE RELEASE

ShockWatch® Doubles Manufacturing Space with a New Facility

DALLAS, TX, JANUARY 25, 2007 — ShockWatch announced today that it has doubled its manufacturing floor space by moving into a new 30,000-square-foot facility in Graham, Texas. As a global leader in developing and manufacturing damage prevention products, ShockWatch now has the capacity to increase production and better serve its customers.

“We are committed to improving our products and our manufacturing processes,” said Danny Goldsmith, Vice President of Operations at ShockWatch. “The new, larger facility will give us the room we need to expand and refine our operations to meet every customer’s needs.”

With a growing network of customers located in 62 countries, the new facility will allow ShockWatch to continue to strengthen its international presence as a provider of comprehensive damage prevention solutions. ShockWatch serves a variety of industries and applications across the globe, including material handling, packaging, manufacturing, military, aviation, mining, oil & gas, transportation, electronics, and biomedical.

ShockWatch specializes in damage prevention, offering Shipping & Handling Monitors and Equipment Monitors for use in a variety of industries and applications. ShockWatch products are used to monitor the handling of goods throughout the production and delivery process, and the operation, access, and usage of equipment with the goal of reducing costs by preventing damage. ShockWatch, along with Media Recovery and The Damage Prevention Company, is part of the MRI family of companies. MRI helps customers achieve new levels of efficiency, quality, and safety and provides products and services to two-thirds of the Fortune 100 and over half of the Fortune 1000 companies.

For more information, contact ShockWatch at 1111 W. Mockingbird Lane, Suite 1050, Dallas TX, 75247; phone (214) 630-9625; fax (214) 637-4512; e-mail: info@shockwatch.com; or visit them on the Web at www.shockwatch.com.
